

EQUALITY

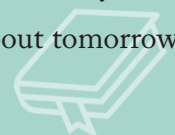

EQUITY

“If we wish to create a world of peace, compassion, justice, resilience, happiness, and thriving sustainability, we cannot emphasise one limb of God’s creation over another. It is not about the powerful and those less powerful, it is about including everyone and not excluding anyone based on beliefs, actions, race, social standing, education, net worth, tribe, political connections, communication skills, attractiveness, gender, age, race, parents, grandparents, family history, accent, physical abilities/disabilities and such.

Everyone has gifts, everyone is part of God’s creation. We cannot create a hierarchy and place judgement on worthy/unworthy skills, attributes and ‘gifts’ if we are to create peace, compassion, justice, resilience, happiness, and thriving sustainability... a real Utopia for everyone, where every child, every person, can go to bed well fed, safe, loved, connected, and optimistic about tomorrow.”

*Paul H. Sutherland, Chairman, STEPi*
